

Editing & Effects

Assignment #3 – Ghost-nonbusters

Goal:

To apply new skills in order to create a scary ghost effect.

The Task:

For this assignment, we will be following a tutorial from the youtube channel Bammo:

[How to Create a Ghost in After Effects in Five Minutes](#)

You will need to create your own ghost effect that matches the one in the video. Obviously, your ghost will be different. Don't be afraid to add your own creative touch to it.

Your final ghost video must showcase the following skills and techniques:

- Create a garbage matte
- Clean out the green screen (you should use keylight for this)
- Add a background image
- Animation
- Reduce opacity
- Add blur
- Change to black and white
- Rotoscope an object in front of your ghost
- Add a bulge effect

We will talk about the track matte and the twitch effect**

Final Product

The final product for this assignment must be rendered to the E & E folder on the server. It must also meet the following requirements:

- 1080p or 720p resolution
- Sound effects/soundtrack included
- Titles at the beginning
- Needs to be scary
